# iMac Creative Computer

The Creative Computer is the Work Bench design computer; it is intended to be used in conjunction with the 3D printer, the laser cutter, the embroidery machine, and the recording studio, but it may also be used for independent projects that require special design software.

## Available software:

- Adobe Creative Cloud
  - Photoshop
  - Illustrator
  - InDesign
  - Lightroom
  - Premier Pro
- DaVinci Resolve
- Bambu Studio
- GarageBand
- iMovie
- Inkscape with Ink/Stitch

## Terms of Use:

- The Creative Computer is for creative projects only; it may not be used for basic computing needs.

- Only patrons 14 years of age or older may use the computer, and users must also have an active library card and a Work Bench card.

- The computer is available for use for up to two hours by reservation only; reservations may be made online.

- Please note, no food or drink is allowed in the Work Bench space.
